## LANGUAGES

- Tamil
- English

## PROFILE

As a skilled Full Stack Developer specialized in MERN (MongoDb, Express.js, React, Node.js) stack, I have a proven track record of delivering high-quality web applications and seamless user experiences. With expertise in front-end and back-end development, I excel in designing responsive interfaces, implementing RESTful APIs, and optimizing application performance. My proficiency in JavaScript, HTML, CSS, and various front-end libraries enables me to create visually appealing and intuitive UIs. Moreover, my experience in database design and management using MySQL, along with server-side development using Node.js and Express.js, ensures robust and scalable applications.

## WORK EXPERIENCE

### Python Trainee

**Aruvi Institute of Learning**                    Aug 2022 - Nov 2022

I learned the basic to advanced Python programming language. I attended various webinars conducted by the institute.

### Full Stack Developer Intern                    Nov 2022 - May 2023

**Largstone Pvt Ltd**

During my enriching internship at Largstone Pvt Ltd, I honed my skills as a full-stack developer. The experience provided an excellent opportunity to work with robust technologies like React, Node.js, Express, and MySQL. Through challenging projects and mentorship, I emerged with a strong foundation in these cutting-edge technologies

### Projects

**Cloning JioMart Website**

During my internship, I undertook my first task - a challenging project where I leveraged HTML, CSS, and JavaScript to clone the frontend of the JioMart website. The primary objective was to make the clone fully responsive, ensuring a seamless user experience across various devices.

**Mall Management System**

I successfully completed my first task and subsequently embarked on the challenging journey of creating a dynamic admin dashboard for mall management. The project involved handling both frontend and backend aspects, and I dedicatedly worked as a one-person team.

**Employee Management System**

Following the successful completion of the mall management task, I eagerly delved into the employee management project, guided by a skilled Development Team Lead and a fellow team member. The experience enriched my abilities and opened new horizons for my career growth

**E-Commerce Website**

I am creating end-to-end e-commerce solutions. Successfully built and launched fully functional websites, dashboards, and backends, leveraging expertise in React, Redux, NodeJS and MongoDB. Demonstrated ability to work independently, ensuring high-quality, efficient, and user-friendly web experiences.
